

Aziz Khan Sheikh

Frontend Web Developer

Solving real-world problems by using JavaScript, it gives multiple way to think as broad-minded. Programming made me passionate; Nature made me curious & life made me rock-hard. Using web tech, I had understood the relation & cooperation of various tech for single responsibility. Extremely motivated to constantly develop my skills and grow professionally. I am confident in my abilities to come up with interesting ideas to solve problems.

SKILLS

HTML5

CSS3

JavaScript

Bootstrap

Github

React.js

PERSONAL PROJECTS

E - Care Management System (10/2021 - 12/2022)

- "E- Care Hospital Management System" is a software to automate most of the day to day activities of a hospital. Our project includes registration of patients, storing their details into the system, and also booking appointments for them. It has a prescription viewing facility by which patients can view their prescriptions online. Moreover it contains a donation module by which people can give their donations and needy people can apply and get donations.
